

Mathematicss – End of Year expectations		
FS1 Lower	FS1 Upper	FS2
I can combine objects. I can compare amounts using vocabulary like Lots, some, more I can count in my play. I can notice patterns and arrange things in pattern. I can use language like up, down, through. I can compare sizes, weights and language like bigger/little/ smaller/ heavy.	I can develop fast recognition of up 3 objects without having to count them. I can recite numbers past 5. I can say one more for each item. I can show number fingers up to 5. I can link a numeral to an amount to 5. I can talk about the patterns around them and recreate patterns – ABAB. I can describe a sequence of events using language like first, then. I can talk about and explore 2d and 3d shapes. I can understand position language though words. I can make comparisons relating to weight, length, size, capacity.	I can count objects, sounds and actions. I can link a number with its cardinal value. I can count beyond ten. I can compare numbers. I can understand one more and one less. I can automatically recall number bonds to 10. I can continue and create repeating patterns. I can compare length, weight and capacity. I can select, rotate and manipulate shapes. I can compose and decompose shapes so that I can see that a shape has other shapes in it.
